**BALUSTRADING GALLERY SHEET**

*Now available in lightweight Stonemakers GRC material in either Polished White or Stone Finish colours.*

**TRADITIONAL**

*We have two systems the GEORGLAN and the CORONA. We have one standard Georgian baluster the Georgian 660, and two different standard systems of base and rail. We can make elements for your setting which easily meet the minimum heights required by your local council.*

**HERITAGE MATCHING**

*We are ready to help you should you want to match an existing baluster; our CAD drawing and pattern making skills will give you fine tolerances of 2mm.*

**INSTALLATION BENEFITS**

*Easy to install because the hollow shaft can be used to enclose reo bars and can be filled with concrete. This makes them structural.*
